DAILY TRIBUNE

The Hengion Reviral.

The meaning the place interest manifested in one sity during the past month has been by far the most numbed event of the new year. In the history of churches of Chicago, Indeed, it as been and is the most striking and serious ever witnessed, and so far from shating with the received of business and the increased animation is the streets and harbor, the thronging multiples at the daily and nightly prayer meetings. the streets and hardor, the throughing and the daily and nightly penyer meetings the ferver or spirit displayed at each and as manifestly on the increase. Meetings page and exherication are held daily in no than twenty five different places—all or of all like with carness disciples and any series after the salvation of Christ; must be churches are upon for appelal evening estreet to the salvation of the salvati and of these, very many are of a class of avery before faken God's name or agreest in the way of blasphemy. The pressure upon Jack Calhoun, the Regent f Kansas, has impelled him to promulgate arough the Star, hand-organ to the Adminitration, an imperial ukase, deciding that the Kansas Legislature, under Leccapton, shall stand as follows:

Republicans STATE II Republicans STATE II Republicans STATE II Proclavery

The nature of the particular inducement for this proclaunation was that if he did not make if he would have his throat cut. The leader of the African Democracy here told Mr. C. that they was not to be fooled, is not accordingly arranged that this uhase should be published, and that certificates abould issue to Frank Marshall and his associates, on the Pro-Slavery ticket for State officers.

and that certificates should issue to Frank fishall and his associates, on the Pro-Slavery ticket for State officers.

As Calhonn only says that certificates will be used to the persons mand in fishesard for the Legislature, and not that they have been issued, it is suspected that Cato, or Lecompte, will issue a mandamis directing them to be given to the opposing candidates, and that if Lecompton should be admitted, he will obey. On the other hand, as the Shawnee and Oxford returns, from Johnson County, have been proved forgeries, if the Legislature ever assumble, the two Sanators and four Representatives from that county will be summarily ejected from their seats, and the Free State men will have three-fourths of such heaned.

The debates on Lecompton in both Houses of Congress, are able, thorsuch and senting. Perhaps the two best speeches yet made in the House on the question, used delivered on Saturday, by Mr. Parasworth, of your district, and Mr. Coltax, of Indiana.

Mr. Farasworth legan by an allusion to the abolition of cerfform in Russia, which was halled with joy by the people of that despotism, and contrasted it with the position of the Administration, which seeks to expel free white laborers from the Teartheries and to fill them

2d. Because freedom was better than slavery; and he answered the arguments and assumptions of the blavery propagandists and discinimizes, that slave seelety was better than free, &c., and the threat of disminon, if Kansas was not admitted. He contrasted the growth, progress and intelligence of the free and slave States, by presenting facts and satistics in a compact and convecing exposition.
